Pop	6.08	4.41	3.26	2.95	4.18
K pop	6.32	4.40	3.52	2.44	4.17
Classical	5.02	4.38	4.12	2.45	3.99
Country	5.86	4.29	2.90	2.81	3.97
Gospel	5.50	3.50	6.00	0.50	3.88
R&B	5.30	4.17	2.83	2.67	3.74
Rap	5.00	3.75	2.10	3.15	3.50
Latin	4.33	3.00	3.33	1.67	3.08

Average mental health scores per BPM category

BPM group	Avg Anxiety	Avg Depression	Avg Insomnia	Avg OCD	Row Avg
Fast	5.91	5.23	4.26	2.70	4.53
Very Fast	6.01	4.84	3.77	2.37	4.25
Moderate	6.01	4.69	3.57	2.62	4.22
Slow	5.62	4.66	3.64	2.90	4.21
Very Slow	5.86	4.91	3.55	2.45	4.19

Average mental health scores by age group

Age Group	Avg Anxiety	Avg Depression	Avg Insomnia	Avg OCD	Row Avg
Young Adult	6.36	5.71	3.69	2.94	4.68
Adult	5.97	5.61	4.14	2.75	4.62
Children	6.20	4.66	4.02	3.15	4.51
Teen	5.75	4.43	3.48	2.41	4.02
Older	4.59	3.84	3.99	1.65	3.52

## Categories with highest mental health scores:

Lofi

Genre

Fast

BPM Group

Young Adult

Age Group

## Key takeaways and considerations:

- With the data provided from the surveys, the most at-risk listener categories are those who listen to Lofi, fast tempos, or are young adults.
- It is essential to consider the external factors that may contribute to trends across demographics; correlation does not imply causation.
